

## Specifications

**Main features:**

- Support built-in GPS module
- Support 32 mega pixel, 2304\*1296P HD recording
- Support 130 degree wide angle
- Support replaceable battery, no shutdown.
- IP 68 protect grade
- Built-in shake motor, auxiliary operation reminding
- White light, support color recording in night mode
- Support external camera

**Specification Parameters:**

Main function	Picture pixel	32 Mega
	Lens	CMOS sensor, 130 degree wide-angle
	Screen	2.0 inch color screen, Brightness 842cd/m <sup>2</sup> , contrast 1648:1
	Playback	Support video, audio, picture local playback, support forward and back playback mode, 2~64 speed optional.
	Storage	Standard is 16GB, 32GB and 64GB optional, 128GB at most
	Digital zoom	Support 4X digital zoom
	One touch recording	Press one button to startup camera and start recording.
Video	Resolution	1296P, 1440P, 1080P, 720P, 848P for configurable, 720P and 848P support both 30FPS and 60FPS
	Compression	MP4
	Video clip	10min, 20min, 30min configurable.
	Pre-recording	More than 30S
	Post-recording	5S/10S/30s/1min/2min/5min/10min
Snapshot	Picture	Picture resolution: 7600*4275 (32 Mega pixel)
	Picture format	JPEG
Night	Distance	5 meters

Vision	IR switch	Manual or Auto
Power	Battery	2200mAh, built-in 130mAh.
	Working hours	720P continues working 5.5 hours, standby 120 hours.
	Charging time	4 Hours
Structure	Weight	Less than 150g
	Dimension	About 82×54×28 (mm)
	Drop resistance	More than 2 meters
	IP grade	IP68
Others	LED light	Red means recording, yellow means audio recording, Green means standby.
	Startup time	3S
Quality	Certification	CE , FCC
